

WHAT MAKES OUR PLAY ROOM SPECIAL?

Our playroom is unlike any other. In addition to the typical toys and art supplies our room is specifically tailored to help children with chronic pain, chronic illness and disability process their conditions, pain, medical trauma and everything that comes along living with medical conditions. We have a play doctor's office set up, nurse's trolley, countless different doctor and chronic pain/illness common items such as play blood pressure cuffs, pain scale chart,

Under the stairs quiet meditation room for before and/or after session calm

play shots, play band aids, play surgical tray with surgical instruments ect. We have 3D printed type I and type II blood sugar testing kits, insulin pumps and CGM toys. Having all of these specialized toys to play with in a therapeutic setting gives children the unique opportunity to process and play out their medical and pain concerns with a trained counselor in a safe environment.

**CHRONIC HOPE HAS THE ONLY CHRONIC PAIN
FOCUSED PLAY THERAPY ROOM IN NC
(AND POSSIBLY FURTHER!)**
